

A New Kind of Donor Advised Fund

Donor advised funds at the New Horizons Foundation offer you 3 big advantages:

1. You can do more with your Donor Advised Fund at New Horizons

ALL GOOD DONOR ADVISED FUNDS HAVE THESE THINGS:

- Professional investment advisement and management
- Access to information and filing of forms online
- Help with structuring planned and technical gifts
- A fee structure of approximately 1% per year
- A responsive staff that can help you with your giving and charity selection

BUT, CAN YOUR DONOR ADVISED FUND DO THESE THINGS?

- Can you make a medical or benevolence gift to a person or family in need?
- Can you fund a mission or vision trip for you or your family?
- Can you have family members paid for charitable service?
- Can you establish a scholarship fund for disadvantaged people?
- Can you give to a foreign charity or need?
- Can you operate your own charitable project for something you are passionate about?
- Do you have the tools to fundraise for important causes?
- Can you provide a paid internship for students wanting to work in the nonprofit sector?
- Can you establish a retirement program for pastors and religious workers?
- Can you be reimbursed for items or services that you buy to support charitable activities?
- Help you structure program related investments to invest in business as ministry?

You can do all these things and more with a Donor Advised Fund at The New Horizons Foundation.

2. **We are generational in our approach**

- Every generation has the ability to give to the organizations that they believe in
- Active generations have a platform to create and explore new solutions to the problems of the day
- Younger generations have the opportunity to serve the causes that they are passionate about

3. **Even before you distribute any money, your Donor Advised Fund at the New Horizons Foundation helps hundreds of projects around the world**

Donor Advised Fund assets at New Horizons do good even before they are given away. The structure that the Foundation has created for Donor Advised Funds enables the New Horizons Foundation to provide fiscal sponsorship to Operating Projects that are changing the world. Foundation projects are in 48 states and 117 foreign countries, helping people by meeting basic needs, advocating for the dignity of life, helping the disadvantaged, providing healthcare, innovating in education, facilitating economic opportunity, and encouraging spiritual development. The New Horizons Foundation has been in operation for more than 30 years, has worked with over 700 projects, and has given away more than \$100million dollars in the last 15 years. We have professional money and asset management through the Graystone Group of Morgan Stanley, or we can use Donors' own money. Forms can be filed online 24/7, and tools are accessible online to do research on charities. Fees are .25% per quarter, and the staff is great about serving project managers. The most unique aspect about New Horizons Foundation is the specialized set of services that are provided to Donor Advised Fund and operating project managers. We are big enough to give Donor Advised Funds all the professional services and support they need to feel secure yet small enough to provide personalized attention and concierge services to help them get things done! We don't just manage money; we help people change the world! To learn more, go to www.newhorizonsfoundation.com and watch the short video at the bottom of the page and request an application to join the New Horizons Foundation Family.
