What are the requirements?

First there is an application process. Your project's charitable purpose must get approved before we can sponsor your project. This usually takes 1-2 weeks after you send in the application.

There is a minimum initial donation of \$2000 to begin a project. \$2000 of this is used to set the project up, prepare the charity profile, and give you access to all the foundations services.

What does it cost?

We provide all our services for an administrative expense allocation of 5% for checks or bank transfers. There is an additional 3% that goes to our merchant services if your donor uses credit or debit card when giving.

We do not charge you bank fees or any other fees. In fact we pay the bank fees for you when sending funds.

There is no minimum balance. There is no contract. There are no membership fees!
